

## Mid-X Medium Expansion Foam Tube For 1 1/2" Turbojet Nozzles - DISCONTINUED

**STYLE 0866**

**Discontinued effective January 2024**

This foam tube is ideal for use in fire & vapor suppression applications with its wide range of expansion ratios.

### Features

The Mid-X can produce a thick foam blanket with the nozzle pattern in a wide fog position or lower expansion foam providing better reach with the pattern in straight stream. The Mid-X attaches in a matter of seconds to many Akron Brass handline nozzles.

- Expansion ratios up to 50:1
- Maximum Pressure 100 psi
- Compatible with: 1 1/2" Turbojet Nozzles Manufactured Since 1993
