

Wildfire® Series Fire Helmet

The leader in wildland firefighting.

Wildfire® Series fire helmets are designed Bullard Tough™ for extreme conditions of wildland firefighting. The tough shell, lightweight and compact design are the industry standard for wildland firefighters... now, with an even more comfortable suspension.

Tough and Durable

The shell of the Wildfire helmet is made of high-heat thermoplastic. This thermoplastic provides unparalleled impact and penetration resistance in wildfire conditions. Several styles of Nomex® ear and neck protectors are available for increased protection.

NFPA Approved

Wildfire helmets exceed the NFPA 1977 Standard on Protective Clothing and Equipment for Wildland Fire Fighting, 2005 Edition. Bullard Wildfire models also exceed all major state fire codes for wildland firefighting.

Versatile

Wildfire helmets are available in cap and hat styles. Standard features include goggle retainer clips for securing eye protection and Scotchlite® reflective stripes for increasing wearer visibility.

Superior Comfort and Fit

Wildfire helmets are designed for exceptional balance, comfort and stability. Now, wearers will find even more comfortable, with:

- More secure suspension attachments;
- Simple headband adjustments for a custom fit;
- Seamless suspension straps; and
- Larger replaceable pillowed brow pad.

Easy-install suspension keys allow the suspension to lock into the shell with an audible click. Vertical height adjustments can be easily changed for a custom fit, and the floating headband offers a comfort fit for all shapes and sizes. For added comfort, the replaceable, extra large pillowed brow pad offers generous padding. The new suspensions are designed to offer extreme comfort and reliability, and they are made to fit Wildfire helmets produced after March 1, 2008.

Find out when your helmet was manufactured. Details on back.

Model Number	Description	Replacement Suspensions	Replacement Brow Pads
Models made before March 1, 2008			
FH911C	Wildfire helmet, pinlock, cap style	ESULTRA	TT1
FH911CR	Wildfire helmet, ratchet, cap style	ESRTSL	TT2
FH911H	Wildfire helmet, pinlock, hat style	ESULTRA	TT1
FH911HR	Wildfire helmet, ratchet, hat style	ESRTSL	TT2
Models made after March 1, 2008			
FH911C	Wildfire helmet, pinlock, cap style	FRS6PC	RBPCOTTON, RBPVINYL, RBPCOOL

Wildfire® Series Fire Helmet

Technical Specifications

Dimensions: Cap 11 3/4" L x 9 1/8" W x 6 5/8" H

Hat 13" L x 11 1/4" W x 6 5/8" H

Weight: Cap 17 oz; Hat 20 oz

Suspension: 6-Point Nylon Crown Strap

Outer Shell Material: Thermoplastic

Warranty: Two years from date of manufacture, all components

Which Suspension?

The date code indicates when the hat was molded. The large arrow inside the "Month / Year" circle points to the month, and the two digits inside that inner circle indicate the year. You can find the date code on the inside of the shell or the underside front brim of the hat / cap under the UBG sticker.

FH911C Wildfire® Helmet NFPA 1977-2005

- Complete with thermoplastic shell
- Cap-style helmet
- 3 goggle clips (FSGC)
- 4 reflective lime-yellow stripes (R536)
- Adjustable chinstrap (R50)
- 6-point suspension (FRS6PC)
- Cotton brow pad (RBPCOTTON)
- 3 velcro material attachment strips inside shell
- Scotchlite® reflective striping (R533).

FH911CR Wildfire Helmet NFPA 1977-2005

Same as Model FH911C with:

- Sure-Lock® ratchet suspension (FRS6RC)
- Cotton brow pad (RBPCOTTON)
- Leather ratchet cover (R160)
- Scotchlite® reflective striping (R533)

FH911H Wildfire Helmet NFPA 1977-2005

Same as Model FH911C with full brim.

FH911HR Wildfire Helmet NFPA 1977-2005

Same as Model FH911HR with

- Sure-Lock ratchet suspension (FRS6RC)
- Cotton brow pad (RBPCOTTON)
- Leather ratchet cover (R160)
- Scotchlite® reflective striping (R533)

1 High heat thermoplastic outer shell

A specially formulated advanced color-through thermoplastic shell with the ultimate in impact and penetration resistance.

2 6-point FR6PC (pinlock) or FR56RC (ratchet) suspension

Both have a cotton brow pad and vertical adjustment capabilities for optimal comfort and fit.

3 Goggle clips

Keep your goggles in place; no slipping or sliding on the helmet.

4 Scotchlite reflective markings

Highest quality reflective material available; retains reflectivity to 500° F (260° C). No burning, cracking or peeling.

5 Underbrim anti-glare strip

Increases the wearer's ability for clear, unobstructed vision free of light glare.

6 Leather ratchet cover (on ratchet models)

Durable and comfortable leather ratchet cover is replaceable in case of damage.
