

Hydraulic Gas Power Units

6.5 HP Simo Power Unit
5,000 PSI or 10,500 PSI

3.0 HP Simo Power Unit
5,000 PSI or 10,500 PSI

PW-65- 6.5 HP (Portable Gas Powered) Simo Hydraulic Power Unit

The portable 6.5 HP gasoline power unit is the legendary work horse for Champion Rescue Tool's lineup of heavy duty hydraulic rescue tools. All Champion power units have single stage pumps, that quickly produce maximum forces (10,500 or 5,000 psi), with NO lag or power loss due to stage transition. Our 6.5 power plant is a true simo-unit, that allows for the simultaneous use of two rescue tools at full power as soon as the tools are activated. Powered by the dependable Honda 6.5 horsepower engine, our pumps are built to operate with your choice of standard fluids and most industry compatible connections, including coaxial couplers.

PW-30- 3.0 HP (Lightweight Portable Gas Powered) Hydraulic Power Unit

For departments with limited space on their apparatus' the 3.0 HP power unit is lightweight and compact. This single stage power unit allows for the connection of two rescue tools for individual, one at a time use. The small footprint and lightweight nature of this Honda 3.0 HP powered unit allow for easy deployment in remote locations, rough terrain or over the side situations. Our 3.0 power units are also available in your choice of high or low pressure, and most industry compatible connections.

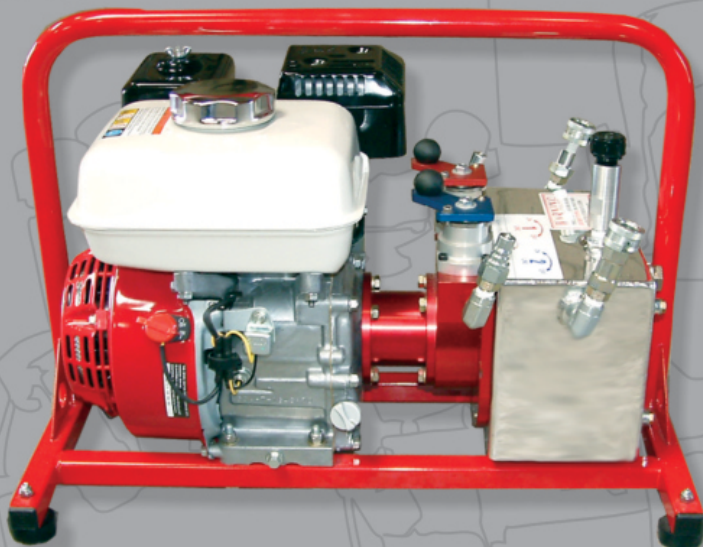

All Champion Rescue Tool pumps carry a 10 YEAR warranty for parts and labor, and have proven to be some of the industry's most dependable hydraulic pump systems!

When Every Second Counts..... TRUST A CHAMPION
