Co Axial Hydraulic Coupling

▼ New Co aXial Hydraulic Coupling réf CX

Connection
Disconnection
Of tools
Under flow

DESCRIPTION

- New technology to help the Fire Brigades.
- This mono coupling allows the change of tools without intervention on the hydraulic group
- the coupling stops any buckling of the hose.
- The connexion is faster in any position
- > The HP hose is inside, the BP hose is outside.
- The rescue worker is not exposed to a pressure of more than a 25 bar.

COMPATIBILITY:

Hydraulic hoses with Coaxial couplers 5 meters long Ref FH5 CX,

10 meters long 15 meters long Ref FH10 CX Ref FH15 CX

Exist in red Réf R, green Réf G, blue Réf B: (conductive) colors

> or orange **Réf O**: (non conductive) colors

Powerful, Lightweight and Reliable in Rescue Operations
