## Firefighter Duty Jacket

- Polyester-spandex blend fabric has been designed to stretch horizontally to provide better fit, more comfort, and freer range of motion
- DWR (durable water repellent) finish retains a rating of 80 after 20 home washes
- Inside jacket fabric is brushed for softness
- 28" body length on the XL sizes measured top front center to bottom with a straight cut hem
- Durable brushed mesh pocket fabric for dual purpose functionality
- All zippers are water resistant
- Double cord pulls on external zippers make it easier to grip with gloves on
- Waist length jacket
- Adjustable hem (waist) draw cords with shield ends are accessed through main pockets to aid comfort in harsh elements and reduce chance of snagging
- Bemis® tape welded zippers to reduce bulk
- Adjustable cuffs offer a customized fit with or without gloves
- Zipper ends are all bar tacked and topstitched for added durability
- Locker loop at back neck
- Main label is a heat transfer for comfort
- Signature Nine1One shield logo made of durable recycled pvc
- Available colors include: black and red
- Standard sizes: small through xx-large (Ask about additional sizes. Call for assistance.)

The Nine 1 One Gear Firefighter duty jacket is still a very capable jacket, but it is designed to offer many departments a better value solution. It works particularly well for lighter duty or for use in climate areas where cold and extreme weather are not critical factors. The Firefighter duty jacket still offers good looks and great performance. The basic construction is similar to our Lieutenant duty jacket, but it is a waist length jacket and the feature content has been revised to meet tighter budgets.
