

TIMELESS RELIABILITY.

Pierce's timeless industry-standard chassis now offers big improvements.

The all-new Saber® chassis was built with the value-driven firefighter in mind – delivering advanced visibility, greater space, improved ergonomics, and streamlined serviceability at an affordable price.

Visibility & Space

- Exceptional visibility is achieved through a large, bonded, single-piece, wrap-around windshield.
- The smaller engine tunnel is lower & more contoured for increased occupant space, particularly up front for the driver & officer.
- The forward roof design offers a cathedral ceiling feel with increased frontal visibility & more configurable space.

Ergonomics

- Exterior door handles are functionally designed for a firefighter's gloved hand.
- The steps are lower to the ground & offset to function like a stair step, making it easier for firefighters to enter & exit the cab.
- The console & metal overhead switch panel are ergonomically designed for maximum convenience & comfort keeping all of the gauges & switches within easy reach of the driver.

Serviceability

- Easy access to the defroster & wiper motors through removable officer-side panels.
- Power distribution relocation provides more interior space & fewer harnesses in the frame & up through the cab for easier servicing.
- Built-in wire raceways throughout the cab reduce the chance of wire chaffing & make it easier to service or add cab harnesses & wiring.

Maneuverability

- Maximum 50 degree cramp angle & 15 degree angle of approach for improved maneuverability in those tight areas & challenging situations.

Specifications

Engine	Ford Power Stroke or Cummins L9
Engine Horsepower	330 – 450 HP
Transmission	Ford Torqshift HD or Allison 3000 EVS
Alternator	270 – 360 Amp
Front GAWR (maximum)	20,000 lb
Front Axle Suspension	Leaf
Cramp Angle (maximum)	50°
Rear GAWR (maximum)	44,000 lb
Rear Axle Suspension	Leaf, Rubber, or Air; Single or Tandem
Frame Rail	10-1/4"
Cab Width	96"
Cab Length	60" or 70"
Cab Roof Style	Flat or Raised (10")
Seating Capacity	8
Doors	Barrier or Full Height
Side Roll Protection	Default
Frontal Air Bags	Default
Electrical System	Hard Wired
