

COAST GUARD NAVY & MILITARY NOZZLES

Bronze & stainless steel

Coast Guard nozzles offers a durable bronze construction in a constant or selectable gallonage nozzle with the features for harsh environment. The standard shutoff ball is made of Delrin™, which provides years of smooth action with minimal wear.

These TURBOKABRONZE AND POKABRONZE offers flow ranges from 60 GPM to 250 GPM in a 1.5" and 2.5" size. All sizes come with a double ball bearing swivel for ease in connection and use. A key feature of the TURBOKABRONZE is its ability to be easily changed from straight stream to narrow fog to wide -angle fog to flush without having to shutdown with the massive rubber -like bumper guard.

Fully compliant with the NAVY and Coast Guard, the TURBOKABRONZE AND POKABRONZE also offer customizing with color-coded pistol grip and shutoff handle as well as type of teeth. Comes standard with a black bumper guard and pistol grip. All TURBOKABRONZES AND POKABRONZES are available in tip only configuration or without pistol grip.

POKABRONZE 500
60, 95 and 125 GPM

POKABRONZE without pistol grip
