Data sheet

WINDSTOPPER® JACKE

For tasks performed at great heights wind and weather play a crucial role. Thus work clothing that protects against weather influences and simultaneously offers the necessary comfort and freedom of movement becomes even more important. The WINDSTOPPER® collection from SKYLOTEC offers both of these characteristics in equal measure. Thanks to the WINDSTOPPER® membrane the wearer is protected against cold and wind. Practical details ensure a high level of comfort during work:

- Orange Reflective piping
- Stowable snood hood
- Doubled, reinforced shoulder section
- Well-designed pocket solutions
- Extended wrist cuffs
- Robust zippers that are easy to handle
- Zipper ventilation in shoulder area
- Preformed, reinforced
- knee section
- Well-designed pocket system
- Legs can be cuffed up via pushbutton
