ARG 51 FORMOTION X-PAD

Decades of experience have gone into the ARG 51 FORMOTION, making it an ideal industrial fall-arrest harness. It meets numerous international standards and can therefore be used worldwide.

- It is easy to put on, thanks to click fasteners.
- The central chest eyelet can be adjusted perfectly, can always be centred thanks to four different buckles, and sits close to the body. This increases the wearing comfort and reduces fall-back risk.
- The ring at the side allows the four straps to move independently of each other. This makes climbing and bending easier.
- The light and flexible back support provides maximum wearing comfort.
- The positioning rings on each side can be folded back, making the descent into narrow manholes easier.
