

724G4-B

The 724 G4-B is a Positive Pressure Ventilation (PPV) fan that features a 24" cast aluminum airfoil blade and a Briggs & Stratton gas engine.

Solid cushion tires makes for easy transportation and a step brake locks both wheels into position. The precision spun steel shroud is adjustable to four angle positions. A steel frame, full roll cage design and heavy gauge steel grill ensure safety and durability of the 724 G4-B.

The 724 G4 is a great combination of size and high power. It features the highest horsepower in it's class for maximum airflow. The 724 G4 is perfect for the department with a mixture of residential and small to medium commercial structures.
