

P200SE

The P200SE is capable of large ventilation tasks and higher airflow. This 20" smoke ejector features a 1 Hp Class 1 Group D electric hazardous location motor for use in all types of ventilation scenarios.

Durability and safety was in mind when this fan was designed. It features a steel frame, a cast aluminum blade, and a heavy gauge steel grill. A baked on powder coat paint job ensures a long lasting finish.

P series fans are the perfect combination of a low noise, high output design. The efficient design of these fans includes Super Vac's patented propeller which produces a much greater intake of air into the vacuum side, eliminates turbulence at the tips, and provides a high velocity screw action that sweeps air back over the motor.

Specs

Motor.....	1 Hp
HxWxD....	25.5"x24.75"x16.25"
Fan Diameter.....	20"
Weight.....	93 lbs
Start.....	4000 watts
Run.....	1500 watts
Shroud.....	6700 CFM
Venturi.....	9500 CFM
