ABOUT THE G-FORCE SERIES

Based on a highly customizable global nozzle platform design, the unique G-Force® series of fixed, selectable, and automatic nozzles combine over 40 years of Task Force Tips design innovation and experience into true next generation firefighting tools. Available in a 1" (25mm) and 1.5" (38mm) versions, the nozzles incorporate unique performance components such as a stainless steel slide valve, inlet debris screen and protective fog pattern choices. The G-Force® series deliver high performance and rugged dependability in a low cost package.
