

# Introducing Task Force Tips HOSE HOOK

The Hose Hook is an innovative patent pending multi-purpose tool that acts as a handle for carrying hose rolls. Works with up to 5 inch hose. Fits in a standard turnout gear pocket. Has integral wrench for use on up to 2 ½ inch rocker lug couplings and most 4" (100 mm) and 5" (125 mm) Storz couplings. Also contains a wrench for foam bucket lids. Rounded shape in hook area allows for draining by hooking and walking along hose length. Can also be placed over hinges to hold doors open. Provides a convenient handle for anything that can be hooked and pulled, like SCBA. Molded from a lightweight and durable nylon. Each Hose Hook comes with a bracket for apparatus mounting.

Handle for carrying hose rolls.

Fits standard turnout gear pocket.

Fits up to 2.5" rocker lug and most 4 & 5" Storz couplings.

Built-in wrench fits foam bucket lids.

Handle for pulling pre-connects.

Place over hinges to hold doors open.

Convenient handle for anything that can be pulled. Hose rolls, SCBA, etc.

## RES-Q-BENCH®

When space is limited, but performance is an absolute must, the folding Res-Q-Rench is ideal for many fire ground and rescue operations. From simple hose coupling functions, to working with patient entrapment, the Res-Q-Rench is the ultimate tool. Ideal for all firefighting personnel, rescue squads, medical service providers, and industrial fire brigades. The patented Res-Q-Rench is available from your local authorized TFT distributor.

**Personalized custom laser engraving is available.**

The Res-Q-Rench is designed to work with rocker lug handline and supply line couplings and is the **only folding spanner that will work with most 4" (100mm) and 5" (125mm) Storz locking couplings**. With its integrated carbide tip window punch, the Res-Q-Rench can quickly pop out windows during vehicle extrication. The heavy-duty seat belt cutter makes short work of vehicle seat belts and other web materials. The Res-Q-Rench easily pries open windows, props doors open, has an integrated residential gas valve shut-off and oxygen bottle wrench.

## RES-Q-ME®

The RES-Q-ME from Task Force Tips is a small versatile tool that can save your life! This patented device is intended to be placed with your car keys. It contains a spring loaded tool steel pin that will break any tempered glass window and a stainless steel blade for cutting seatbelts. The break apart design allows the RES-Q-ME to be quickly removed from its storage location without removing the keys from the ignition. The RES-Q-ME is easily carried on a key ring or can be attached to different places in your vehicle.
