

CHAMPION SUPER HOSE

Certified EN 14540, in size mm 38, 45, 52, 63, 70, 75, 102.

100% polyester, CHAMPION was developed and patented by THONI "AUSTRIA" which has over 30 years experience in the production of hoses.

CHAMPION SUPER made externally in polyester, while the inner lining is EPDM elastomer, the best product on the market for this use.

High quality and accurate manufacturing processes give it a high resistance to weather, aging, UV ozone, mould than any rubber lining.

CHAMPION SUPER is suitable for industrial use.

You will get more than the price you pay, and will be never disappointed, even after years, if treated properly during periodical hydraulic test.

It is a certainty of good quality over time.

Marketed in Italy since 1975, known for unsurpassed lightness, flexibility and great quality. Overpass all parameters specified by EN 14540.

Excellent adhesion to polyester elastomer, three times more than required by the standard.

Light and handy, allowing storage in small cabinets.

After use, we recommend drying before rewind and put into hose cabinet.

**SUPERB, TRADITIONAL
QUALITY EXPERIENCE.**

TECHNICAL CHARACTERISTICS

Type	Weight Gr/mt	Working pressure	Test pressure	Burst pressure
DN 45	200	12	20	>45
DN 70	400	12	20	>45

This hose is over 30 year in the market, never had problems for leakages or burst during the test required by EN 671 every 5 years at 12 bars.

The high quality of elastomer GOMEL and the unique process of lining gives the highest adhesion possible with the polyester yarn. The adhesion test required by the standard EN 14540 is passed without any problem.

Binding of couplings is made with aluminium ring or wired and protected with rubber sleeves.

FIRE HOSE CHAMPION SUPER DN 45				
Cod.	DN	mt	Coupling	weight gr
55226	45	20	Heavy coupling UNI 804/75	1.720

FIRE HOSE CHAMPION SUPER DN 70				
Cod.	DN	mt	Coupling	weight gr
55228	70	20	Heavy coupling UNI 804/75	2.170

Available diameters in mm 38, 45, 52, 63, 70, 75, 102 and 15, 20, 25, 30, 60 mt length.

Couplings, brass, light alloy, bronze German Storz, British BSS 336, American NST, and other.

Coupling STORZ

Coupling Afnor

Coupling BSS

Coupling Barcelona

Binding wire in according to UNI, protection rubber, PVC maintenance label UNI 671/3.

Made up by **thöni** experience, inovation, seriously, high quality, for industrial and regularly use .
