

# 716G4-B

---

The 716 G4-B is a Positive Pressure Ventilation (PPV) fan that features a 16" cast aluminum airfoil blade and a Briggs & Stratton gas engine.

Solid cushion tires makes for easy transportation and a step brake locks both wheels into position. The precision spun steel shroud is adjustable to four angle positions. A steel frame, full roll cage design and heavy gauge steel grill ensure safety and durability of the 716G4-B.

The 716 G4 is designed to compact dimensions that fit the tightest pumper compartments. It's portability and versatility make it an excellent choice for small to medium residential ventilation.

## Specs
