

# 720E2

---

The 720E2 is a Positive Pressure Ventilation (PPV) fan that features a 20" cast aluminum airfoil blade and a 1 horsepower electric TEAO (Totally Enclosed Air Over) motor.

The 720E2 has solid cushion tires for easy transportation and a step brake that locks both wheels into position. The precision spun steel shroud is adjustable to four angle positions. A steel frame, full roll cage design and heavy gauge steel grill ensure safety and durability of the 720E2.

The E2 models feature a tough, no frills method of supplying clean air to a structure. The E2 is perfect for the department buying their first electric PPV or for the department with tight budgets.
