

New Product Announcement

Clean Air Hose Reel Series 7000

Reelcraft's Series 7000 is now available as a safe and efficient respiratory component. It features strength and reliability as with every other Series 7000, and in addition the fluid path is non-corrosive stainless steel. When properly installed, Reelcraft's 7800 OLB21 clean air reel is designed to reduce the operator's burden of managing long lengths of hose. When the reel is not in use, expensive respiratory hoses are stored up and out of harms way. The reel holds 50' of 1/2" I.D. neoprene hose.

Benefits

- **Safety** - Reel stores hoses up and out of the way when not in use, reducing possibility of slips, trips, and falls.
- **Strength** - Base and guide arm are made from heavy gauge steel and robotically welded for superior strength by design.
- **Versatility** - Multi-positional guide arm facilitates ceiling, wall or floor mount and adjusts with the removal/repositioning of four bolts.

Related Products

Reelcraft offers a complete line of over 2,500 standard hose, cord and cable reels. Visit us online at www.reelcraft.com for a comprehensive listing and our special manufacturing capabilities.

Applications

- Painting
- Chemical Handling
- Pharmaceutical
- Manufacturing

Size Index		
	in / mm	
A	20 1/4	514
