

## FILLING STATIONS FOR 60 LITER DRUMS WITH SUMP PALLET

The use of 60 liter drums when handling hazardous substances on a day-to-day basis is widespread. The 60 liter filling stations have been developed in order to store these drums and fill off liquids from them in safety.

- ◆ Sump pallet made from 3 mm galvanized sheet steel / sump capacity 60 liters
- ◆ Ground clearance 40 mm
- ◆ Horizontal storage of 60 liter drums
- ◆ Grid shelf for small container storage
- ◆ Mixture of basic and extension units allows extension as required
- ◆ Plug-in connections for high stability
- ◆ Height-adjustable storage levels
- ◆ Max. load per crossbeam pair 200 kg
- ◆ Max. load per unit 600 kg
- ◆ Galvanized for high corrosion protection
- ◆ Fixed drum supports as standard
- ◆ Assembly instructions provided for quick assembly
