

Petrol driven ventilator MT245

Easy Pow'Air Technology

Positioning from 0.90 m to 6 m

- **Automatic tilt:** Lifting the handle tilts the ventilator automatically to the correct working position.
- **Positioning from 0,90 m to 6 m:**
 - Effective between 2 to 6 m from the opening
 - Can also be positioned as near as 0,90 m
- **Air Flow: 51 200 m³/h**
- **Noise:** 96 dBA at 3m (positioning the ventilator at a further distance reduces the noise level for the user).
- **Stable & Easy to handle:** With its large wheels at the back, the MT245 is very easy to handle even in very adverse terrain.
- **Strengthened turbine.**
- **Protective Frame:** epoxy coating.
- **Can be positioned to the precise angle you need** between +10° and +20°. Tilt positioning accessory to ventilate sub-terrain levels. The angle above 10° together with allowed distance negates problems with stair landings.

- **Air Flow: 51 200 m³/h**
- **Easy to handle: automatic tilt**

LEADER
Tomorrow's technology today

CHARACTERISTICS

Model	Reference	Engine	Running time At full speed (working inclination)	Dimensions W x H x D	Weight
MT245	I60.10.051	6.5 HP HONDA GX 200 - 4 stroke	2H	72 x 72 x 62	52 kg

ACCESSORIES

5m Duct	I60.20.113	Exhaust Pipe Extension – length 2.5m	I60.20.012
Mister Adaptor	I60.20.104	Protective Cover	I60.20.097
High Expansion Foam Adaptor	I60.20.116	-10° Tilt Positioning Adaptor	I60.20.108
Hour meter	I60.20.135	Exhaust Pipe Adaptor	I60.20.014

Easy Pow'Air Technology added to the Turbo-ventilators' specific air entrainment effect:

Advantage 1:

Effective between 2 to 6 m
Can also be positioned as near as 0,90 m

Advantage 2:

Easy to handle:
More space between the entrance and the ventilator.

Advantage 3:

Ventilate in all circumstances,
even with raised floors or steps.

Advantage 4:

Reduced noise level for users due to a
positioning further away from the entrance.

MAINTENANCE :

Reduced maintenance due to its robust conception.
All the components are easily interchangeable by the user.
