

Bristol Uniforms Along With Rosenbauer Slovenia Secures Contract With Ljubljana Fire Brigade

Published on 5 Apr 2019

Bristol Uniforms, a designer and manufacturer of protective clothing for emergency services across the globe, has joined forces with its international distributor Rosenbauer Slovenia to secure a contract with Ljubljana Fire Brigade.

Rosenbauer Slovenia and Bristol's world-class design team worked closely to produce the winning design, which is based on Bristol's ergonomic and lightweight XFlex design and

customized to accommodate specific equipment. They used the latest fabric technology to create a quality, bespoke garment using a Hainsworth TITAN1220 outer layer, a GORE-TEX CROSSTECH FIREBLOCKER moisture barrier and a Hainsworth ECO-DRY ACTIVE lining.

Customizing Garments

Bristol's experienced design team is well-versed in customizing garments and delivered to a high specification

The XFlex design met Ljubljana's core requirements - manufactured to European standards, fit for purpose, comfortable, ergonomic and durable - but was adapted to ensure it fully complied with their brief, including a special shaped collar, waist adjuster straps and additional padding on the shoulders.

As well as having specific fabric and design requirements, the brigade also wanted the design to incorporate a number of different loops, hooks and pockets to accommodate a specific harness belt, radio and mic, torch, carabiner and Pax bag. Bristol's experienced design team is well-versed in customizing garments and delivered to a high specification.

Strong Competitors

Aleš Vrčnjak, Area Sales Manager at Rosenbauer Slovenia said *We invested a lot of time into understanding the brief and requirements, and are very pleased with the finished design, as were Ljubljana. We were up against some strong competitors in the industry but in the end, our*

edge."

Richard Cranham, International Sales Manager at Bristol Uniforms said: *"We have a long history of supplying Ljubljana Fire Brigade, who procured PPE from us until the mid 2000s, and are pleased that they have once more opted for Bristol kit. The contract will see us supplying the Brigade with 220 sets of kit over three years, including warranty. They have already taken delivery of 114 sets and feedback so far is really positive."*
