

Angus Fire Red Chief fire hose for municipal fire protection

Technical Specification

Make	Angus Fire	
Company	Angus Fire	
Model code	Red Chief	
Hose Size (in.)	1.5	

**Additional
info**

Angus Red Chief is a nitrile rubber through-the-weave construction fire hose that is ideally suited for municipal fire protection. Its synthetic jacket is completely protected and locked in by a rubber cover and lining for extra toughness and extra durability. The heavy rib construction makes the hose highly resistant to cuts, punctures, impact and abrasion.
